

RAL Colours

Thank you for choosing Fabco Sanctuary for your project, our team are looking forward to working closely with you over the next few weeks to ensure your products exceed your expectations.

However, to enable us to deliver your products within your quoted delivery time we require you to choose your desired RAL colour at your earliest convenience.

All our frames will be finished in a Polyester Powder coating in your chosen RAL colour. The Paint used is a 30% Gloss level which gives an overall Matt finish. Whilst a large amount of the colours we offer come as standard as included in your quotation, non-standards will incur additional costs.

Please see below RAL colour charts showing the standard and non-standard colours they we are able to offer:

Please note, samples are available upon request up to a maximum of 5.

Standard RAL colours:

Colour Matching:

We can colour match our Steel Windows and Doors to any colours required, we've manufactured our frames in a variety of individual colours but most notably Farrow and Ball is a common choice.

Due to the bespoke nature of this service please contact us for further details about your requirements, unfortunately, all prices are on application.

Silicone:

Most of the RAL colours listed above will come with a matching silicone, however, some may incur an additional cost. Please ask a member of our team for more details.
