

Internal Shower Door Ironmongery

We use 'Frank Allart' Ironmongery as we believe they offer the highest possible standards to meet the aspirations of each individual customer request. Unlike many other companies, Frank Allart offer solid brass, long lasting, high performing products with a vast variety of designs. Over time, the colour and texture variation will gradually wear and oxidize which gives more character and elegance to these items in their own specific way.

*When it comes to a shower door, you will **need** to have an upstand and a four-sided frame rather than a 'goal post frame'. The reason being is for water proofing and to reduce the risk of water leaks.*

Furniture: You can choose from the 'Frank Allart' ironmongery however there are a couple of other options that are available for shower doors.

57 Series 5722

61 Series 6102

90 Series 9032

55 Series 5512

57 Series 5753

61 Series 6123

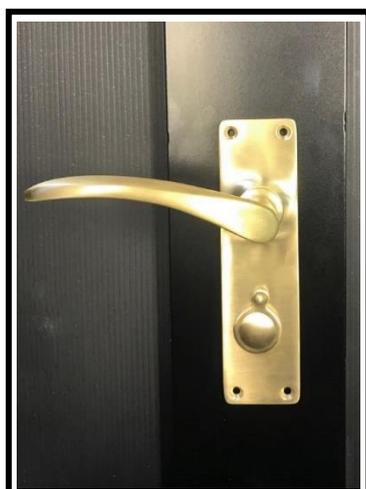

90 Series 9023

55 Series 5512

Please note, all internal doors come without a lock unless this is requested.

Your quotation currently includes all ironmongery to be finished in Satin Brass Lacquered /Unlacquered (SB/U) or Polished Brass Lacquered/Unlacquered (PB/U) unless otherwise specified. Other finishes are available however please note that they will incur additional costs. Please see PDF for all other options.

Please see to the left both options fitted to our lock box to give you an idea of the aesthetics

Please see photograph to the right. This is an alternative Z handle that has a minimalistic appearance and has the advantage of not requiring a lock box. This will be welded to the frame and will be finished in the same Polyester powder coating as the frame.

The final option available is to have magnets on the inside of the door frame to keep the door closed.

Hinges:

Butt Hinge

Bullet Hinge

Butt Hinge: These are heavy duty hinges that are already included in the cost of your quotation.

Bullet Hinge: These are also known as projection hinges, they have acquired this name as they have the facility to project further than the butt hinge. These come at an additional cost (POA).
