

External Double-Glazed Doors

- Slimmest framed doors with **narrow sightlines** around the frame with welded steel glazing bars
- Industry leading **B-rated thermal performance** with Krypton-gas filled double-glazed units
- Safety glass included as standard
- **Wet glazed** with colour-matched silicone for authentic look and to support thermal performance
- Option to have aluminium bead instead of silicone without affecting performance
- Galvanised and powder-coated to **protect from corrosion**
- Choice of locking options from 5-lever to multilock
- First company to achieve **PAS24 enhanced security** in slimline steel doors
- Made to exacting standards using the latest manufacturing techniques
- Highest quality Frank Allart architectural ironmongery with a choice of designs and finishes
- Designed & manufactured in UK
- We never use subcontractors, you will always deal with Fabco employees
