FABCO

W20 Slimline Steel Windows & Doors

- ◆ Our products are welded using a TIG process. This process is **much stronger and less visible** than methods used by our competitors.
- ◆ Fabco **do not use subcontractors** for site work, all our installation teams are fully employed by the company
- Highly skilled **hand-applied silicone glazing** as standard for a traditional authentic finish.
- Fabco has one of the **highest credit ratings** in the construction industry. We recommend any customer to credit check any potential supplier.
- Our **family run company** has grown from a background of specialist restoration and preservation of windows and metalwork on many of the finest ecclesiastical and historic buildings.
